*"A Woman of Great Faith, Resolute Hope and
Steadfast Love; A Woman for our Times"*

ASYNCHRONOUS CLASS ADVISORY

Date: June 16 and June 23, 2026

Time: 10:00-5:40pm

Course/Subject: ITAD 112, Application Development and Emerging Technologies

Instructor: Engr. Val S. Mangalino, MMEngM

Dear Students,

Please be informed that our class on the date mentioned above will be conducted asynchronously due to Educational Tour of BS CpE. This means that there will be no live online or face-to-face session during the scheduled class period. Instead, you are required to complete the following learning activities:

Development of the Front-End and Back-End Components of the System

Learning Tasks:

1. Continue the development of the **Front-End** of your system, including:
 - User Interface (UI) design and implementation
 - Navigation and page integration
 - Form validation and responsiveness
2. Continue the development of the **Back-End** of your system, including:
 - Database design and implementation
 - API development and integration
 - User authentication and system functionality
3. Integrate the front-end and back-end components to ensure proper communication and functionality.
4. Document the progress made and identify any challenges encountered during development.

Expected Output:

- Updated source code of the front-end and back-end modules.
- Progress report detailing completed features and pending tasks.
- Screenshots or screen recordings demonstrating the current state of the system.

Submission Details:

- **Deadline:** June 29, 2026
- **Submission Platform:** To be presented individually

Learning Outcome:

At the end of this asynchronous session, students should be able to:

- Develop and enhance both front-end and back-end components of a software system.
- Integrate system modules effectively.
- Apply software development principles in building a functional application.

Thank you for your cooperation and ensure that all outputs are submitted on or before the deadline.

For questions or clarifications, please contact me through our respective group chats.
Thank you for your cooperation and please ensure that all tasks are completed on time.
